This form can be used to request access to anonymised data from the NNAS candidate database for research purposes.

The NNAS:

- Will not release data which will be used for commercial gain or advantage
- Will not release data which could identify any individual or course Provider
- Will ask successful applicants to complete a Non-Disclosure Agreement before data will be shared
- Will grant permission for data to be shared with supervising tutors or professors of the applicant(s)
- Requires the finding of any research carried out to be shared with the NNAS, and agreement that the NNAS may publish it for the benefit of their members
- Will not share data with other manufacturers, suppliers or advisers, nor any business interest which might be considered to be in competition with the NNAS
- May share the outcomes with other third parties such as Sport England, the British Mountaineering Council (BMC), Mountain Training or its subsidiaries
- Will credit the applicant(s) fully for any published research.

Data available includes, but is not limited to:

- Candidate age
- Gender mix
- Geographical spread of candidates
- Number of awards at each level.

The decision about whether to share data will be made by the NNAS Board of Trustees.
